

Dear Vicki and Jim,

Be carefull, Jim, because dad thinks he can beat you since you took his queen. I hope not. Mary and Mike are just fine now and they had a wonderful week~~e~~nd at the o~~ce~~an, at Moclips, which is just past Copalis. All the old shacks have been replaced by beautiful motels now.

I am having the piano all fixed up with new ivor~~es~~, tuning, and also whatever else it needs. It will be nice to have it in good order because it really is a nice piano and I play the Black Hawk Waltz every morning just to keep in practice. The man is coming this afternoon.

Your night out in Washington D. C. sounded wonderful. Princess Christina from Sweden is going to be at the Swedish Club Oct. 14th, but I called too late for tickets, but I don't feel too badly about it. I don't have a good Swedish teacher this year. She doesn't seem to know much more than I do. Dad had done my homework and she was glad to hear the correct way to do several things. I might transfer into dad's class after Christmas. I must vacuum in back of the piano now. More later.

Love,

Mom.
